MINISTER'S MESSAGE

Alberta's exports enjoyed another strong year in 1993, as the value of goods and services exports increased by 11.1 per cent to \$21.6 billion. The value of the export of goods alone increased 11.3 per cent to \$19.7 billion.

Alberta has always been a trading province, active in international markets. Today, Albertans recognize their economic future is clearly tied to continuing success in the global marketplace. While primary energy and agricultural commodities remain major exports, petro-chemicals and forest products, processed food items, petroleum exploration and development equipment, electronics and

telecommunications products and environmental products and services are also crossing Alberta borders in increasing numbers en route to international markets.

Our growth depends on increasing the value of our exports, particularly the exports of value-added goods and services. Expanding our industries and infrastructure will require new investment from across Canada and around the world.

The health of Alberta's economy is based on worldwide exports of resources, manufactured goods and services, and attracting investors and tourists to the province. The Alberta Advantage helps us to attract people, business and capital to the province to help us conduct our international business in the most competitive way.

The Alberta Advantage includes a highly-skilled and productive workforce, the lowest overall taxes in the nation, a strategic location and a highly developed infrastructure, and vast supplies of natural resources. The key advantage that we offer business, however, is our dedication to free enterprise.

Albertans are succeeding in the international trade arena. In 1993, Alberta's exporters marketed their products and expertise to over 150 countries. International exports continue to represent approximately 25 per cent of Alberta's Gross Domestic Product (GDP).

The Government of Alberta believes that our future growth depends on our ability to work in partnerships to seize opportunities, increase our exports and attract investment and tourists to the province. We hope this publication will provide useful information to Alberta businesses aiming to expand their international sales and to those entering the global marketplace.

A handwritten signature in dark ink, reading "Ken Kowalski".

Ken Kowalski
Deputy Premier
Minister, Economic Development & Tourism

Preface

International trade is vitally important to the increased growth of the Alberta economy. The value of Alberta's exports of goods and services increased 11.1% to \$21.6 billion in 1993 from \$19.4 billion in 1992.

Primary goods still dominate Alberta's goods exports, with a total value of \$13.7 billion in 1993. The export of primary goods remains the strength of Alberta's goods exports valued at \$13.7 billion in 1993. Oil, gas and sulphur exports remain the single largest commodity export valued at approximately \$11.1 billion or 51.5% of Alberta's goods and service exports. Primary agriculture is also an important export sector valued at \$1.9 billion or 8.8% of total exports.

International exports generate wealth for the province and create jobs. The Alberta Government is working to increase the attractiveness of doing business with Alberta companies through a competitive tax and regulatory regime, investment in human resources, supportive infrastructure and encouragement for industry-led economic development and strategic partnerships with business and communities. These all add to produce the Alberta Advantage.

These actions have been largely successful. The value of international goods exports has increased since 1989. The Alberta economy is diversifying into value-added or manufactured goods exports, with manufacturing exports valued at 26.8% of Alberta exports in 1993. This was the second largest sector after mining. Manufacturing exports were \$5.8 billion, three times that of primary agricultural exports.

Alberta exported to over 150 countries in 1993. The largest single market remains the United States, representing 81.3% of Alberta's exports of goods. Japan and South Korea were the second and third largest markets, accounting for 6.0% and 1.6%, respectively of Alberta's goods exports.

This review of Alberta's 1993 export performance is intended to provide Alberta businesses with valuable information on current export markets.

About the Data

This publication provides a convenient data source for Alberta's international trade in goods. Each country is presented for those which Alberta exported at least \$5 million in goods in 1993, a profile of the top 15 Alberta products countries. For comparative purposes, Canadian exports are also shown. A summary of export totals to all countries is included in Appendix B.

The trade commodity nomenclature used is the Harmonized Commodity Description and Coding System (Harmonized System or HS), adopted by Statistics Canada in 1988.

Exports by geographic region, industry, and commodity are also provided in the following sections. Statistics Canada regional groupings are used. Industry groupings are based on Statistics Canada's publication on concordance between export commodity and industry classifications (see Appendix A). For commodities, six-digit HS codes have occasionally been grouped in order to present more commonly understood descriptions.

For the purposes of this publication, six-digit HS codes are presented in the country profile tables. For simplicity, commodity descriptions accompanying these codes may have been revised slightly from their standard format. Readers requiring the exact content of a particular HS number, therefore, are referred to the Customs Tariff Schedule of Canada.

In 1990, a new system of data exchange was initiated between Canada and the United States. Improved data capture resulted in higher export values for most of the commodity categories traded to the United States. While this will not affect comparisons between 1993 and 1992 data, caution should be used in interpreting longer-range trends which include export data to the United States.

Statistics Canada is the main source for this publication. However, Alberta Agriculture publishes export statistics for agricultural commodities which more accurately reflect Alberta's contribution to Canada's agricultural production for export. The system is based on HS codes but better allocates exports to their point of origin. For this report, agricultural revisions have not been included. For revised information, the reader is encouraged to contact:

Alberta Agriculture, Food & Rural Development
Market Analysis & Statistics Branch
Room 302, 7000 - 113 Street
Edmonton, Alberta, T6H 5T6
Telephone: (403) 427-4011
Fax: (403) 427-5220

Information captions appearing at the top right corner of each country profile are sourced from the "Handbook of Nations, 13th Edition" and "International Financial Statistics".

The term "exports" refers to "domestic exports": goods grown, extracted or manufactured in Canada, and includes goods of foreign origin which have been materially transformed in Canada and then re-exported.

Unfortunately, service exports cannot be included on a country-specific basis since these data are not presently available. However, total service exports (including tourism) have been provided in the following "Year in Review" section. Throughout the remainder of this document, "exports" will refer strictly to merchandise exports.

The Year in Review

Alberta's exports of goods and services totalled \$21.6 billion in 1993, a 11.1% increase over 1992. Export of goods grew 11.3% from \$17.7 billion in 1992 to \$19.7 billion in 1993. Exports of services is estimated to have increased 8.8% from \$1.7 billion in 1992 to \$1.9 billion in 1993. Much of the growth in the service industry was seen in tourism, which is estimated to have grown 19.8%.

Alberta's 11.3% increase in the export of goods was below that for Canada (15%). Factors which may have influenced international trade were:

- the value of the Canadian dollar decreased in value against the U.S. dollar;
- the persistence of slower economic growth in many regions and countries restrained demand and consumption in these markets; and
- continuing economic restructuring in Eastern Europe, and the prospect for tighter economic integration in Western Europe, created an element of uncertainty for business in these markets.

Of the major sectors, manufacturing experienced the largest increase in the value of exports in 1993. Growth from \$4.7 billion to \$5.8 billion resulted in an increase of 22.7%. All mining exports also was an increase in exports (12.3%). Specifically, oil and gas and sulphur exports increased from \$10.0 billion to \$11.1 billion, a 11.4% increase. This increase is largely due to exports of oil and gas which increased 14%. Most (99.8%) of the oil and gas exports were to the United States. Sulphur exports decreased 62%. Primary agricultural exports decreased 17.2% from \$2.3 billion in 1992 to \$1.9 billion in 1993.

Alberta exported to more countries in 1993 than in 1992. In 1993 Alberta exported to 156 countries compared to 144 in 1992. Decreases in exports were recorded in six of the nine geographic regions. These decreases were experienced by Eastern Europe (-39.8%), Africa (-45.9%), Asia (-7.7%), Oceania (-29.7%), South America (-20.6%) and Central America (-0.3%). Increases were experienced in the United States market (18.4%), and the Middle East (11.7%). Western Europe (0.0%) remained relatively unchanged. Of Alberta's top ten country markets half experienced increases. These were the United States (18.4%), Japan (11.0%), South Korea (10.8%), Taiwan (0.7%), and Mexico (13.3%).

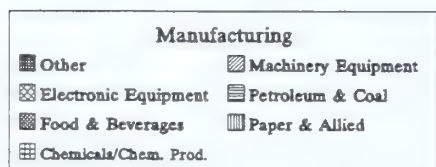

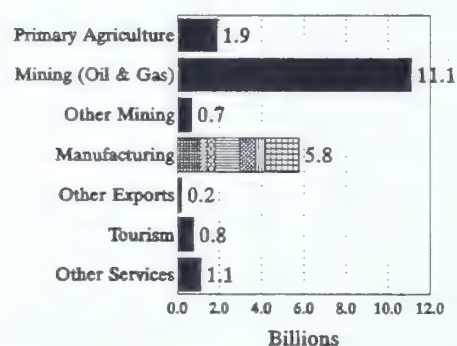

Alberta Exports by Industries, Commodities and Country

Alberta's value of exports of goods and services increased by 11.1% in 1993 from \$19.4 billion in 1992 to \$21.6 billion in 1993. This growth can be attributed to mining (12.3%), specifically oil, gas and sulphur. Mining remains Alberta's largest single sector. The value of mining exports increased from \$10.5 billion in 1992 to \$11.8 billion in 1993. Manufacturing was responsible for a large proportion of this growth. The manufacturing sector increased from \$4.7 billion in 1992 to \$5.8 billion in 1993. This represents a 22.7% increase. The value of primary agriculture exports declined in 1993 compared to 1992 by 17.2%. The export of services grew by 8.7% primarily as a result of tourism, which is estimated to have increased 19.8%. Unfortunately, services exports are difficult to measure by industry or country, since data are not presently available. Therefore, throughout the remainder of this document, "exports" will refer strictly to merchandise exports.

Mining exports was the largest single sector in Alberta in 1993. Total mining exports, including oil, gas, coal, sulphur etc., was valued at \$11.8 billion in 1993. This represents 54.9% of all goods exported in 1993. The value of oil and gas exports increased 11.4% from almost \$10 billion in 1992 to \$11.1 billion in 1993. The value of manufacturing exports increased to \$5.8 billion in 1993. Manufacturing represents 26.8% of Alberta's goods and services exports. The value of wood and paper and allied products totalled \$719.4 million, a 15.4% decrease from 1992 values of \$849.9 million.

Alberta Exports by Industry, 1993

Total Value of Exports \$21.6 Billion

Of the 16 manufacturing sectors, only one did not show an increase in the value of exports. Paper and allied products decreased in value from \$627.5 million in 1992 to \$442.1 million in 1993, a 29.5% decrease. The largest of the manufacturing sectors was chemicals and chemical products valued at \$1.6 billion in exports followed by refined petroleum & coal products with \$1.2 billion in exports. Refined petroleum & coal products experienced a significant increase (111.7%) in the value of exports from \$564.1 million in 1992. This sector is responsible for 5.5% of Alberta's exports in goods and services compared to 2.9% in 1992. Food, feed and beverages saw an increase of 28.0% in the value of exports from \$588.0 million 1992 to \$752.9 million in 1993. The value of textile exports in 1993 was \$114.3 million. It is important to note that of that \$114.3 million, 99% or \$113.2 million was filament tow.

Agriculture, Food and Beverages

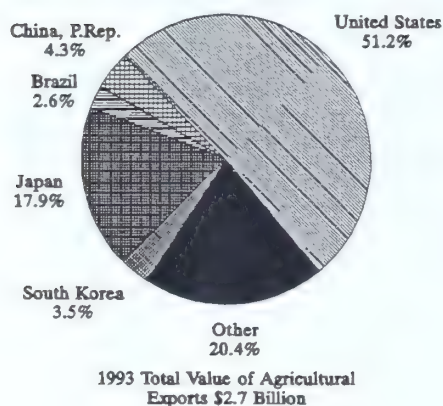

Agricultural revisions have not been included in this report. The reader is encouraged to contact Alberta Agriculture, Food & Rural Development for revised information.

The combined value of Alberta's primary agriculture, food and beverage exports was \$2.7 billion in 1993. This was a decrease of 7.9% from 1992. The value of wheat was the largest single commodity exported worth \$659.8 million in 1993. This is a decrease from \$1.2 billion in 1992, or a drop of 47.1%. Live cattle was the second largest agricultural export valued at \$528.6 million, an increase of 13.3% over 1992 values. Beef exports increased from \$188.2 million in 1992 to \$292.6 million in 1993 or a 55.4% increase.

Alberta's Major Agricultural Exports (including Food & Beverage Manufacturing)

	1992 (\$000s)	1993 (\$000s)	Percent Change

Agricultural Products Exports
Alberta's Main Markets
(includes Food & Beverage Manufacturing)

Alberta's primary market for agricultural products was the United States. The United States imported 51.2% of Alberta's agricultural exports. The per cent of agricultural exports to the United States increased dramatically from 1992, when the United States market accounted for only 37.9%. Agriculture exports to the United States totalled \$1.4 billion in 1993, increasing 24.4% between 1992 and 1993. Alberta's second largest market was Japan valued at \$474.9 million or 17.9% of Alberta's agricultural exports. Japan's market share of Alberta's agricultural products remains relatively constant, in 1992 their market share was 16.4%. China remained Alberta's third largest trading partner for agricultural products. However, the value of these exports decreased dramatically from \$355.9 million in 1992 to \$114.2 million in 1993. This is the equivalent to a 67.9% decrease.

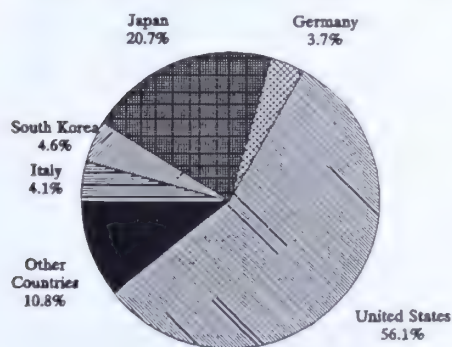

**Forestry,
Wood Products,
Paper and Allied
Manufacturing**

This sector contributed \$721.9 million to Alberta's exports in 1993. This is a decrease from \$850.8 million in 1992 or 15.1%. The main commodity export from this sector was wood pulp. The value of exports of wood pulp decreased by 33.9% from \$582.7 million in 1992 to \$385.1 million in 1993. Particle board exports increased 71.3% from \$92.9 million in 1992 to \$159.1 million in 1993. Lumber exports declined 11.0% from \$123.4 million in 1992 to \$109.9 million in 1993. Paper & paper board and fibre board both increased in the value of exports in 1993 compared to 1992 (40.2% and 17.4%, respectively).

**Alberta's Major Forestry Exports
(includes Wood Products, Paper & Allied Manufacturing)**

	1992 (\$000s)	1993 (\$000s)	Percent Change
Wood Pulp	582,693	385,087	-33.9
Particle Board	92,865	159,059	71.3
Lumber	123,406	109,896	-11.0
Paper and Paper Board	21,310	29,876	40.2
Fibre Board	17,250	20,242	17.4
Total Above	837,524	704,160	-15.9
TOTAL ALL FORESTRY	850,762	721,948	-15.1

**Forestry Products Exports
Alberta's Main Markets**
(including Wood Products & Paper & Allied Manufacturing)

1993 Total Value of Forestry
Exports \$721.0 Million

Over half (56.1%) \$404.7 million of Alberta's forestry exports were to the United States. Forestry exports to the United States decreased from \$479.1 million in 1992, (-15.5%). Japan is Alberta's second largest market for forestry exports, accounting for \$149.3 million or 20.7% of all forestry exports. Exports to Japan remained stable between 1992 and 1993.

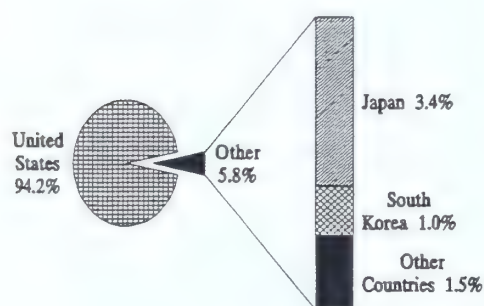

Mining
(Oil, Gas,
Sulphur,
Coal/Other
Mining and
Refined Petroleum)

In 1993 this sector accounted for almost \$13.0 billion of Alberta's exports or 66%. Crude petroleum was the leading commodity export for this sector valued at \$5.6 billion. This remained relatively constant between 1992 and 1993. Natural gas, the second highest valued commodity export at \$5.4 billion, experienced a 31.8% increase in 1993 compared to 1992. These two commodities account for 55.8% of Alberta's exports. The liquefied petroleum gases increased dramatically from \$357.6 million in 1992 to \$949.0 million in 1993, a 165.4% increase. Coal and petroleum oils other than crude also experienced increases of 27.5% and 21.2%, respectively. Sulphur suffered a decrease in the value of exports of 61.8% from \$347.3 million in 1992 to \$132.7 million in 1993.

Alberta's Major Mining & Refined Petroleum Exports

	1992 (\$000s)	1993 (\$000s)	Percent Change
Crude Petroleum	5,565,631	5,625,301	1.1
Natural Gas	4,062,750	5,353,128	31.8
Petroleum Gases, liquefied	357,574	949,020	165.4
Propane, liquefied	179,317	388,931	116.9

Mining Products Exports Alberta's Main Markets (includes Refined Petroleum Products)

1993 Total Value of Mining
 Exports \$13.0 Billion

The vast majority (94.2%) of exports from this sector were to the United States. Though the market share has not changed dramatically between 1992 and 1993, the total value of exports has increased. In 1992 Alberta exported \$575.2 million from the mining sector to the United States. In 1993 the value of exports to the United States rose to \$1.2 billion, a 113.8% increase. Japan was Alberta's second largest market resulting in 3.4% of exports followed by South Korea at 1.0%.

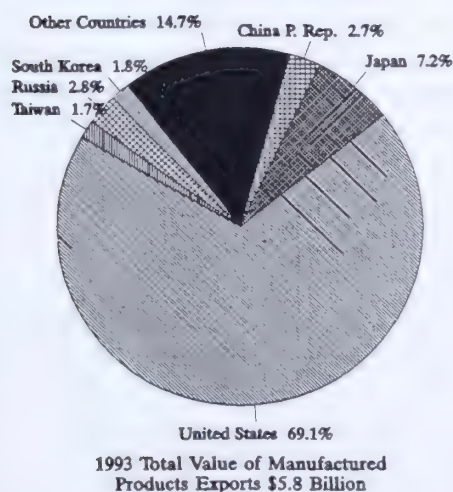

Manufacturing

Alberta's exports of manufactured products totalled \$5.8 billion in 1993, which is up considerably from \$4.7 billion in 1992. All but one manufacturing sector increased in the value of exports in 1993 compared to 1992. The value of exports of paper & allied products dropped 29.5 from \$627.5 million in 1992 to \$442.1 million in 1993. The three largest exporting manufacturing sectors were chemicals & chemical products valued at \$1.6 billion, refined petroleum & coal products valued at \$1.2 billion, and food, feed and beverages valued at \$752.9 million.

Alberta's Major Manufacturing Exports

	1992 (\$000s)	1993 (\$000s)	Percent Change
Polyethylene	394,755	403,921	2.3
Propane, liquefied	179,317	388,931	116.9
Wood Pulp	582,693	385,087	-33.9
Beef	188,230	292,573	55.4
Petroleum Oils Other Than Crude	191,215	231,680	21.2
Ether	113,732	216,323	90.2
Telephone/Telegraph Line Systems & Apparatus	142,129	181,170	27.5
Urea	170,455	160,550	-5.8
Particle Board	92,865	159,059	71.3
Ethylene Glycol (ethanediol)	167,588	148,679	-11.3
Methanol (methyl alcohol)	142,638	139,734	2.0
Total Above	2,365,618	2,707,706	14.5
TOTAL ALL MANUFACTURING	4,705,220	5,791,060	22.7

Manufactured Products Exports Alberta's Primary Markets

Polyethylene was Alberta's largest commodity export, showing a small increase of 2.3% from 1992. Dramatic increases were seen in exports of liquefied propane and ether of 116.9% and 90.2%, respectively. Wood pulp exports, on the other hand, decreased 33.9%.

The United States was Alberta's largest market for manufactured goods. In 1993 Alberta exported 69.1% of its manufactured products to the United States. Exports of manufactured goods to the United States increased from almost \$3.0 billion in 1992 to \$4.0 billion in 1993, a 33.7% increase. Alberta's second largest market for manufactured goods was Japan. Exports to Japan remained relatively stable between 1992 and 1993, increasing by 1.5% to \$417.6 million. Russia imported \$165.0 million in manufactured products from Alberta, followed by China at \$155.5 million, South Korea at \$107.1 million, and Taiwan at \$96.2 million.

Chemicals and Chemical Products

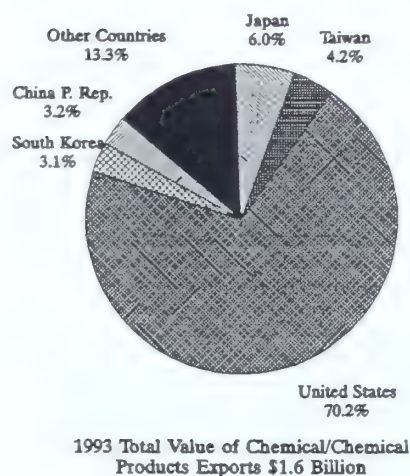

Chemicals and chemical products was the largest sector in the manufacturing industry. This sector accounted for 27.7% or \$1.6 billion of all manufacturing exports. The chemicals sector experienced growth of 4.4% over 1992.

Of the seven largest chemical exports three experienced increases in export sales. Polyethylene increased 2.3% to \$403.9 million. Ethers jumped 90.2% from \$113.7 million in 1992 to \$216.3 million in 1993. Styrene exports increased 6.2%. The four commodities which decreased in export value were urea (-5.8%), ethylene glycol (-11.3%), methanol (-2.0%) and ammonia (-1.1%).

Alberta's Major Chemicals & Chemical Products Exports

	1992 (\$000s)	1993 (\$000s)	Percent Change
Polyethylene	394,755	403,921	2.3
Ethers	113,732	216,323	90.2
Urea	170,455	160,550	-5.8
Ethylene Glycol (ethanediol)	167,588	148,679	-11.3
Methanol (methyl alcohol)	142,638	139,734	-2.0
Styrene	116,235	123,385	6.2
Ammonia	83,145	82,205	-1.1
Total Above	1,188,549	1,274,797	7.3
TOTAL ALL CHEMICALS/CHEMICAL PRODUCTS	1,539,064	1,606,413	4.4

Chemicals & Chemical Products Exports

The United States imported \$1.1 billion of Alberta's chemical exports. The United States was Alberta's largest market for chemical exports accounting for 70.2% of chemical exports. Japan was Alberta's second largest market importing \$95.7 million in chemical products followed by Taiwan (\$67.6 million), China (\$52.2 million) and South Korea (\$50.1 million).

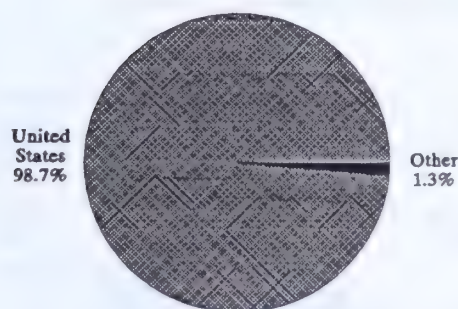

Refined Petroleum and Coal Products

Refined petroleum and coal products was the second largest sector in the manufacturing industry. This sector increased from \$564.1 million in 1992 to \$1.2 billion in 1993, a 111.7% increase.

Liquefied petroleum gases such as propane and butane make up the majority of the refined petroleum sector. Alberta exported \$949 million of liquefied petroleum gases in 1993.

Exports to the United States increased 122.6% between 1992 and 1993. In 1992 exports were valued at \$564.1 million compared to \$1.2 billion in 1993. The United States imports 98.7% of Alberta's international exports of refined petroleum and coal products.

Refined Petroleum & Coal Products Exports
Alberta's Primary Markets

1993 Total Value of Refined Petroleum & Coal Products Exports \$1.2 Billion

Alberta's Major Refined Petroleum & Coal Products Exports

	1992 (\$000s)	1993 (\$000s)	Percent Change
Petroleum oils other than crude	191,215	231,680	21.6

Machinery

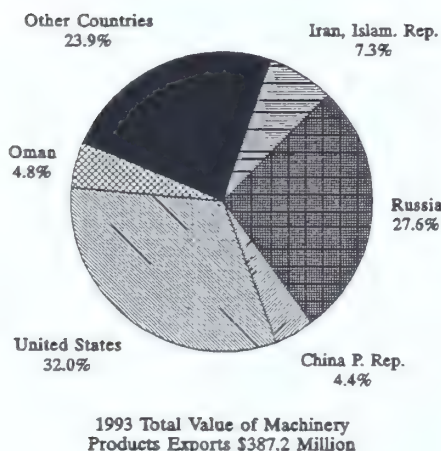

Machinery exports were valued at \$387.2 million in 1993. This represents a 48.8% increase over the 1992 value of \$260.2 million. Machinery represents 1.8% of total exports and 6.7% of manufacturing exports.

Oil and gas drilling machinery accounted for 22.5% of machinery exports. This commodity increased from \$65.1 million in 1992 to \$87.2 million in 1993 or 33.8%. Machines having individual function such as oil/gas field wireline and downhole equipment had an export value of \$59.5 million, a 27.0% increase over 1992. Other machinery exports which experienced increases included pumps/compressor/ fans (75.0%), lifting/handling/loading machinery (2,339.6%), turbo-jets & gas turbines (577.4%) and hydraulic power engines & motors(16.1%)

Alberta's Major Machinery Exports (includes Electrical & Transportation Equipment)

	1992 (\$000s)	1993 (\$000s)	Percent Change
Drilling Machinery (oil/gas)	65,135	87,177	33.8
Machines having individual functions (e.g. oil/gas field wire line and downhole equipment)	46,884	59,549	27.0
Pumps/Compressors/Fans	24,380	42,657	75.0

Total Above	163,815	281,987	72.1
TOTAL ALL MACHINERY	260,208	387,192	48.8

Machinery Products Exports Alberta's Primary Markets

Almost one-third of Alberta's machinery exports were to the United States. These exports are valued at \$123.7 million. Russia was Alberta's second largest market accounting for 27.6% or \$107.0 million in machinery exports. Growth in both these markets has been exceptional. In 1992 the United States imported \$90.9, million this has resulted in a growth of 36.2% between 1992 and 1993. Information is not available for Russia for 1992, but the Former Soviet Union imported \$20.2 million in machinery in 1992 while Russia, alone, imported \$107.0 million in 1993. If these numbers are compared that would represent a 430.1% increase.

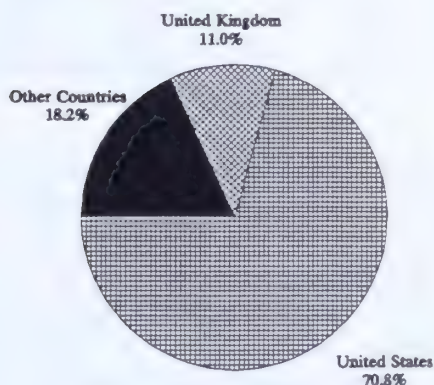

Electrical and Electronic Equipment

The value of electrical and electronic equipment exports increased 27.8% from \$291.3 million in 1992 to \$372.4 million in 1993. The single largest commodity group export was telephone/telegraph line systems and apparatus valued at \$181.2 million. This includes telephone sets, switching apparatus and parts. This commodity group increased 27.5% over 1992 values. Transmission apparatus for radiotelegraph incorporating reception apparatus increased 54.9% from \$61.1 million in 1992 to \$94.6 million in 1993. Automatic data processing machines and parts increased 8.7% to \$27.4 million.

Alberta's Major Electrical & Electronic Equipment Exports

	1992 (\$000s)	1993 (\$000s)	Percent Change
Telephone/Telegraph Line Systems & Apparatus	142,129	181,170	27.5
Telephone Sets	65,499	81,674	24.7

Total Above	228,402	303,163	32.7
TOTAL ALL ELECTRICAL/ELECTRONIC EQUIPMENT	291,345	372,433	27.8

Electrical Products Exports Alberta's Primary Markets

1993 Total Value of Electrical Products Exports \$372

Alberta's primary market for electrical and electronic equipment was the United States at \$263.8 million. Of all Alberta exports of electrical and electronic equipment 70.8% were to the United States. The United Kingdom was Alberta's second largest market accounting for 11.0% of all electrical and electronic equipment or \$40.8 million in exports.

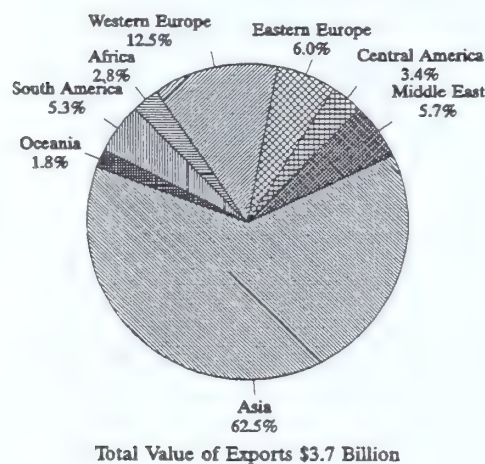

ALBERTA EXPORTS BY COUNTRY, REGION AND INDUSTRY

The United States continues to be Alberta's main foreign export market accounting for 81.3% of export revenues. This is a dramatic increase from 1992 when the United States accounted for 76.5% of Alberta's total exports. The value of exports to the United States increased 18.4% from \$13.5 billion in 1992 to \$16.0 billion in 1993.

Alberta's Ten Largest Export Markets

	1992 (\$000s)	Percent of Total	1993 (\$000s)	Percent of Total	Percent Change 1993/92

Alberta Exports to Non-U.S. Markets, 1993

Japan was Alberta's second largest export market. Japan has maintained its market share at 6.0% of Alberta's exports. The value of exports to Japan increased 11.0% from \$1.1 billion in 1992 to \$1.2 billion in 1993. South Korea replaced China as Alberta's third major export market. Exports to South Korea increased 10.8% from \$288.6 million in 1992 to \$319.7 million in 1993. The value of exports to China, Alberta's fourth largest market, decreased dramatically (47.0%) between 1992 and 1993. This decrease was primarily due to a decrease in the export of wheat to China. China was followed by the Former Soviet Union(-41.8%), Taiwan(0.7%), Brazil(-10.0%), the United Kingdom(-9.2%), Indonesia(-18.0%) and Mexico(13.3%). Mexico is Alberta's tenth largest export market replacing Iran which held that position in 1992 (see above table).

The United States and the Middle East both experienced increases in the value of goods exported from Alberta. The Middle East increased 11.7% from \$188.7 million in 1992 to \$210.9 million in 1993. The value of exports to Western Europe remained relatively unchanged between 1992 and 1993. Exports to the remaining regions decreased between 1992 and 1993.

Regionally, Asia was Alberta's second largest market. The percent of total exports (market share) decreased from 14.1% in 1992 to 11.7% in 1993. This reflects the increase in exports to the United States and the decrease in the value of exports to Asia. Exports to Asia were down 7.7% from \$2.5 billion in 1992 to \$2.3 billion in 1993. Western Europe remains the third largest market accounting for 2.3% of Alberta's exports. Exports to Western Europe remained relatively constant between 1992 and 1993.

Alberta Exports by Region

	1992 (\$000s)	Percent of Total	1993 (\$000s)	Percent of Total	Percent Change 1993/92
United States	13,524,411	76.5	16,006,732	81.3	18.4
Asia	2,491,565	14.1	2,299,531	11.7	-7.7

Alberta's exports to the United States increased by 13.9% on an average annual basis over the period 1989 to 1993. This growth is higher than that of Canadian exports to the United States which averaged 9.8%. The gain over this period may be overstated. Changes to the data collection methodology were made in 1990 which resulted in improved data capture and higher value estimates arising from the inclusion of freight charges in the evaluation process.

In 1993 Alberta exported \$16.0 billion in goods to the United States or 11.2% of total Canadian exports to the United States. Alberta's share of Canadian exports to the United States decreased slightly from 11.4% in 1992.

Exports to the U.S. by Industry

	1993 (\$000s)	Percent of Total
Primary Agriculture	809,920	5.1
Mining	11,052,730	69.1

The largest single industry to export to the United States was the mining industry. In 1993 \$11.1 billion or 69.1% of Alberta's exports to the United States was from this sector. Petroleum oils and natural gas were the two main commodities from this sector. Petroleum oil exports amounted to \$5.6 billion and natural gas exports were valued at \$5.4 billion. The value of natural gas exports increased 31.8% between 1992 and 1993. The United States remains Alberta's largest market for oil, gas and sulphur,

accounting for 94.1% of Alberta's oil, gas and sulphur exports.

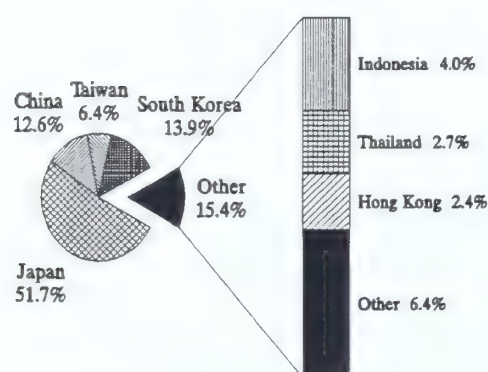

After mining, the manufacturing industry accounted for the second highest value of exports. Manufacturing exports to the United States were valued at \$4.0 billion in 1993 or 25.0% of Alberta's exports to the United States. The largest manufacturing sectors exporting to the U.S. were refined petroleum and coal products valued at \$1.2 billion, and chemicals & chemical products valued at \$1.1 billion. Primary agriculture, also an important export, was valued at \$809.9 million.

Asia

The average annual growth in exports to Asia was 3.1% between 1989 and 1993. With exports valued at \$2.3 billion in 1993, Asia was Alberta's second largest market. The value of exports to Asia decreased 7.7% from 1992 values of \$2.5 billion. In 1993 exports to Asia amounted to 11.7% of Alberta's total exports.

Almost half (45.0%) of Alberta's exports to Asia were in the manufacturing sector. The value of exports generated from the manufacturing sector was \$1.0 billion. The single largest manufacturing sector was Chemicals and Chemical Products valued at \$405.5 million or 17.6% of Alberta's exports to Asia. The second largest manufactured export was food and beverages valued at \$152.7 million followed by textiles (mainly filament tow) valued at \$112.0 million. Primary Agriculture was also an important industry valued at \$650.8 million in 1993 or 28.3% of Alberta exports to Asia. Mining, primarily coal, accounted for 25.4% of Alberta's exports to Asia or \$584.6 million.

Japan

Japan was Alberta's largest Asian market accounting for 51.7% of the value of all Alberta exports to the region. This is an increase from 43.0% in 1992. This was the result of an increase in the value of exports to Japan and a decrease in exports to China. In 1992 exports to Japan were valued at \$1.1 billion. In 1993, Alberta exports were valued at \$1.2 billion, an increase of 11.0%. The average annual percent growth for exports to Japan was 2.3% between 1989 to 1993, unlike exports from Canada which decreased 1.0% on average. Alberta exports to Japan accounted for 14.2% of Canadian exports.

Coal was the single largest export from Alberta to Japan, valued at

\$425.3 million in 1993 compared to \$300.7 million in 1992 (41.3%). Coal exports accounted for 35.8% of Alberta's exports to Japan and 35.3% of Canada's coal exports to Japan. Canola was the second highest valued export to Japan at \$173.4 million a decrease of 9.5% from 1992. Barley, wheat, chemical wood pulp and methanol exports all increased in 1993 compared to 1992.

South Korea

South Korea was Alberta's second largest Asian market in 1993. The total value of exports to South Korea increased from \$288.6 million in 1992 to \$319.7 million in 1993, a 10.8% increase. Exports from Canada totalled \$1.7 billion. Alberta exports to South Korea accounted for 18.8% of all Canadian exports to South Korea. Though Alberta saw a significant increase in the value of exports from 1992 to 1993 (10.8%) the average annual growth has declined 0.9% between 1989 and 1993. This is primarily the result of the lower value of exports from Alberta to South Korea in 1992. On average Canadian exports to South Korea have increase 1.6% from 1989 to 1993.

Coal was the single highest valued good exported from Alberta to South Korea at \$121.2 million. It accounted for 37.9% of Alberta's exports to South Korea and 36.5% of Canadian exports of coal to South Korea. Wheat was the second highest valued commodity exported to South Korea from Alberta valued at \$78.6 million. The value of wheat exported to South Korea is up dramatically (247.8%) from the 1992 value of \$22.6 million. Styrene was also a popular export. The value of styrene exports increased by 58.2% from \$17.8 million in 1992 to \$28.1 million in 1993.

China

Alberta's third largest Asian market was China valued at \$289.5 million in 1993. The value of exports to China was down dramatically from 1992. In 1992 Alberta exports were valued at \$545.8 million. The result has been a 47.0% drop in the value of exports to China. Canadian exports to China have had the same experience as Alberta. Canadian exports to China dropped 28.5% from \$2.1 billion in 1992 to \$1.5 billion in 1993.

Wheat was Alberta's largest single export to China and largely responsible for the overall decline in the value of exports to China. In 1992 wheat exports were valued at \$335.5 million. In 1993 they were valued at \$98.8 million, a 70.6% decrease. The decrease in wheat exports to China was reflected in the Canada's export values as well. In 1992 Canada exported \$1.2 billion and in 1993 exported \$418.5 million, a 66.1% decrease. Alberta's second largest commodity export was artificial filament tow which increased from \$40.8 million in 1992 to \$67.2 million in 1993, a 64.8% increase. Exports of ethylene glycol decreased 10.1 %.

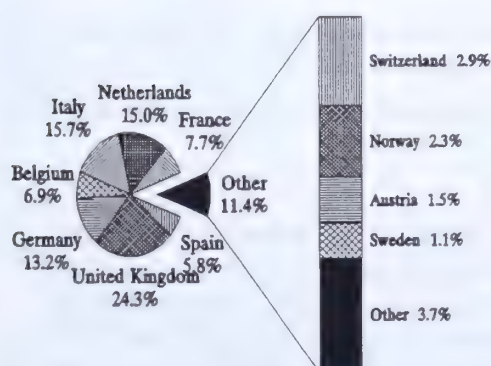

Western Europe

The value of exports to Western Europe has experienced continuous growth since 1989, resulting in a average annual growth of 10.9%. Between 1992 and 1993 growth was stagnant increasing only slightly from \$459.4 million to \$459.5 million or (a 0.0% increase). The United Kingdom was Alberta's largest market in 1993 valued at \$111.7 million in exports. Though Alberta's largest Western European market the value of exports to the United Kingdom decreased 11.6% between 1993 and 1992. Italy replaced Germany as Alberta's second largest Western European market with exports valued at \$72.1 million in 1993. Italy has experienced an average annual increase in the value of Alberta exports of 21.8% between 1989 and 1993. The Netherlands was Alberta's third largest market in 1993 with exports of \$68.9 million, a 33.3% increase from 1992 values. Germany dropped to fourth position with \$60.7 million in Alberta exports, a decrease of 7.0%.

Alberta Exports to Western Europe

	1989 (\$000s)	1990 (\$000s)	1991 (\$000s)	1992 (\$000s)	1993 (\$000s)	Avg. Annual Percent Change

Alberta Exports to Western Europe, 1993

Total Value of Exports \$459.5 Million

The majority (76.0%) of Alberta's exports to Western Europe was from the manufacturing industry with a value of \$349.4 million. Paper and Allied Products comprised 20.9% of all Alberta exports to Western Europe valued at \$96.1 million. Primary metals was the second most significant manufactured export to Western Europe valued at \$53.3 million or 11.6% of exports. Electrical/electronic equipment was also an important export valued at almost \$52.0 million or 11.3% of Alberta's exports. Primary agriculture accounted for 11.4% of Alberta's exports to Western Europe or \$52.4 million.

Exports to Western Europe by Industry

United Kingdom

The United Kingdom was Alberta's largest market in Western Europe. Exports to the United Kingdom were valued at \$111.7 million in 1993, down by 11.6% from \$126.3 million in 1992. Exports from Canada decreased 7.2% between 1992 and 1993. Since 1989 Alberta exports to the United Kingdom have increased at an average annual rate of 18.6% versus Canadian exports which have on average decreased 4.9% over the same period.

Semi-chemical wood pulp was Alberta's single largest commodity export to the United Kingdom in 1993. The value of wood pulp

exports increased from \$14.1 million in 1992 to \$18.7 million in 1993 or a 32.5% increase. Coal was Alberta's second largest export in 1993. The value of coal exports to the United Kingdom decreased from \$23.5 million in 1992 to \$17.2 million in 1993 or a decrease of 27.0%. Alberta's third highest valued commodity export was telephone sets valued at \$11.7 million in 1993 accounting for a decrease of 19.1% between 1992 and 1993. Telephonic/telegraphic switching equipment also decreased from \$14.7 million in 1992 to \$11.6 million in 1993.

Italy

Alberta's second largest market in Western Europe in 1993 was Italy. The value of exports to Italy from Alberta increased 24.3% from \$58.1 million in 1992 to \$72.1 million in 1993. Contrary to the Canadian trend, since 1989 Alberta's exports to Italy have risen an average of 21.8% compared to Canadian exports which have decreased an average of 5.6%.

The value of exports of semi-chemical wood pulp increased from \$20.5 million in 1992 to \$29.2 million in 1993, a 42.7% increase. Exports of coal to Italy also increased. Coal exports in 1992 amounted to \$9.8 million but rose 62.8% to almost \$16.0 million in 1993. Alberta's coal exports accounted for 93.9% of Canadian exports of coal. Fresh, chilled or frozen horse, ass, mule or hinny meat was Alberta's third leading export to Italy. This commodity increased from an export value of \$3.6 million in 1992 to almost \$7.0 million in 1993.

Netherlands

The Netherlands was Alberta's third largest Western European market with export values of \$68.9 million. Compared to 1992 exports of \$51.6 million, 1993 exports have increased 33.3%. Canadian exports decreased 8.6% between 1992 and 1993. In general Alberta is not following Canada's trend in the value of exports to the Netherlands. Since 1989 Alberta has remained stable averaging 1.0% increase whereas Canada has experienced an average 4.0% decrease over the same period.

Alberta's leading commodity export to the Netherlands in 1993 was unwrought nickel valued at \$30.6 million. The export of this commodity increased 13.2% over 1992. Unwrought nickel accounted for 44.5% of Alberta's exports to the Netherlands and is largely responsible for the increase in the value of exports to the Netherlands. Parts for boring and sinking machinery was Alberta's second largest commodity export to the Netherlands valued at \$9.7 million, up from \$767 thousand in 1992. The value of cobalt exports increased from \$2.5 million in 1992 to almost \$9.0 million in 1993.

Eastern Europe

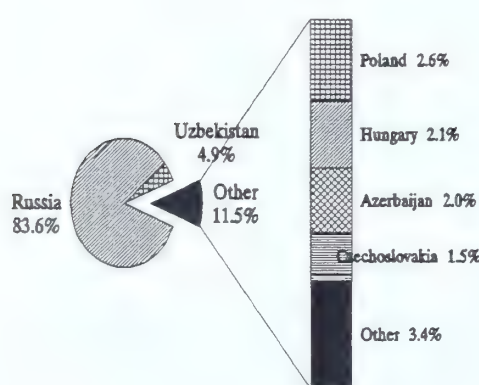

The value of exports to Eastern Europe were down 39.8% in 1993 compared to 1992. In total \$222.3 million in goods were exported to Eastern Europe in 1993 compared to \$369.6 million in 1992. This decrease is attributable to a decrease in the value of exports to the Former Soviet Union (-41.8%), Hungary (-54.8%), Czechoslovakia (-36.3%) and Bulgaria (-53.8%).

Alberta Exports to Eastern Europe, 1993

Total Value of Exports \$222.3 Million

The majority (79.7%) of Alberta's exports to Eastern Europe were from the manufacturing industry. Almost half of Alberta's exports were from the machinery sector. Machinery exports were valued at \$110.6 million in 1993 accounting for 49.8% of Alberta's exports to Eastern Europe. Primary agriculture was the second largest export. Over \$41 million or 18.5% of Alberta's exports were primary agriculture. Fabricated metals were also an important export to Eastern Europe valued at \$23.3 million or 10.5% of Alberta's exports to Eastern Europe.

Russia

Russia was Alberta's largest market in Eastern Europe. The value of exports to Russia in 1993 was \$186.0 million. Russia accounted for 83.6% of Alberta's exports to Eastern Europe. Canada exported a total of \$429.7 million to Russia in 1993. Forty-three per cent of Canada's exports to Russia were from Alberta.

Machines and mechanical appliances was Alberta's largest single export to Russia valued at 25.9 million. Parts for boring or sinking machinery were valued at \$24.0 million followed by lifting, handling, loading/unloading machinery (\$19.5 million), wheat (\$17.4 million) and parts for lifting, handling, loading/unloading machinery (\$14.5 million). Alberta's export of machines and mechanical appliances accounted for 99.2% of Canadian exports of this commodity. Similar proportions exist for most of Alberta's top 15 exports to Russia.

Uzbekistan

At \$10.8 million in exports Uzbekistan is Alberta's second largest export market in Eastern Europe. Alberta exports to Uzbekistan represented 19.6% of Canadian exports. Alberta exported two

commodities to Uzbekistan; wheat valued at \$10.8 million and parts of machines or mechanical appliances valued at \$28.1 thousand. Of the \$45.6 million in Canadian wheat sales to Uzbekistan Alberta supplied 23.6%.

Middle East

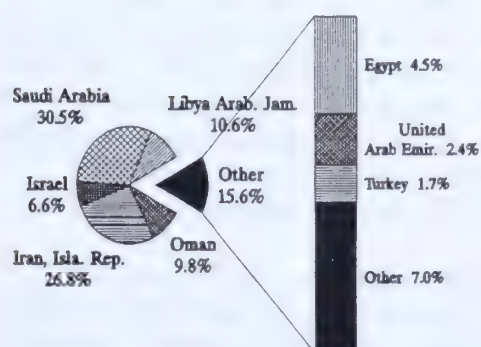

The value of Alberta's exports to the Middle East increased from \$188.7 million in 1992 to \$210.9 million in 1993, a 11.7% increase. Saudi Arabia, with Alberta exports valued at \$64.4 million, was Alberta's largest market in the Middle East followed by Iran with \$56.5 million in Alberta exports.

More than half (54.7%) of Alberta's exports to the Middle East were from the primary agriculture industry. This industry exported \$115.3 million to the Middle East in 1993. The manufacturing industry was the second largest industry exporting to the Middle East. Manufactured exports totalled \$87.4 million and accounted for 41.5% of Alberta's exports to the Middle East. Machinery exports represented 26.7% of Alberta's exports or \$56.3 million

Saudi Arabia

The value of exports to Saudi Arabia increased from \$18.4 million in 1992 to \$64.4 million in 1993. This represents a 249.3% increase. Canadian exports also experienced significant increases from \$286.7 million in 1992 to \$485.1 million in 1993, a 69.2% increase. The increases for Canada are a result of increased exports of tanks and barley. Since 1989 Alberta's has experienced an average annual decrease of 13.6% contrary to Canada's average annual increase of 9.5% over the same time period.

Almost all (94.3%) of Alberta's exports to Saudi Arabia was barley. At a value of \$60.7 million Alberta's barley represented 48.3% of Canadian exports of barley to Saudi Arabia. Alberta's second largest commodity export to Saudi Arabia was telephone sets valued at \$1.6 million.

Iran

Alberta's second largest market in the Middle East in 1993 was Iran. Exports to Iran were valued at \$56.5 million down from almost \$83.0 million in 1992, a 31.9% decrease. Since 1989 the average annual decrease in exports to Iran from Alberta is 1.6%. Canada experienced a decrease of 3.7% over the same period.

Alberta accounted for 22.0% of the \$257.0 million Canada exported to Iran in 1993.

Wheat was Alberta's highest valued export, at \$25.8 million, to Iran in 1993. This is down significantly from \$69.2 million in 1992, a 62.8% drop. Canadian wheat exports also dropped between 1992 and 1993. In 1993 Canada exported \$109.2 million in wheat compared to \$255.2 million in 1992, a 57.2% decrease. Of Canadian wheat exports Alberta accounted for 23.6%. Alberta's exports of gas turbines were valued at \$24.4 million. This represented all of Canada's export of gas turbines to Iran.

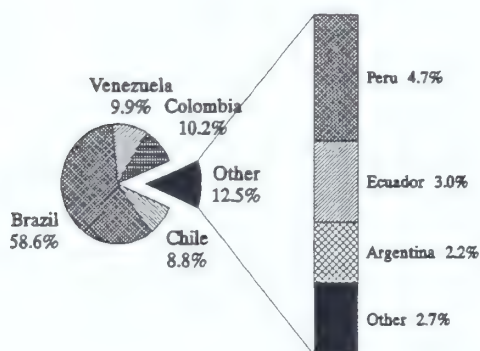

South America

The value of Alberta's exports to South America decreased from \$244.5 million in 1992 to \$194.1 million in 1993, a 20.6% decrease. The two countries that experienced increases in the value of Alberta exports to South America in 1993 compared to 1992 were Uruguay and Guyana (203.3% and 44.0%, respectively). Brazil, Colombia and Venezuela remained Alberta's three most important markets in South America. Between 1989 and 1993 the average annual growth in exports for South America has been 7.4%.

Alberta Exports to South America, 1993

Total Value of Exports \$194.1 Million

Almost 60% of Alberta's exports to South America were from the primary agricultural industry. Primary agriculture exports were valued at \$116.3 million in 1993. Exports from the mining industry represented 24.0% of Alberta's exports to South America or \$46.5 million. The manufacturing industry accounted for the remaining 15.3% in Alberta exports to South America.

Exports to South America by Industry

Brazil

Brazil was Alberta's single most important market in South America, representing 58.6% of Alberta's exports to South America. The value of Alberta's exports to Brazil were \$113.7 million in 1993. This is a 7.5% decrease from 1992 values of \$123.0 million. Alberta accounted for 15.2% of the \$749.8 million Canadian exports to Brazil. Since 1989 the value of Alberta's exports to Brazil has increased at a slower pace, on average, than Canada's. Alberta's average annual growth in exports was 4.5% while Canada exports grew at a rate of 9.5%

Fifty-nine per cent or \$67.3 million of Alberta's exports to Brazil was wheat. The value of wheat exports to Brazil decreased 4.0% from \$70.0 million in 1992. Coal was Alberta's second largest export commodity to Brazil valued at \$22.9 million. Almost half (49.3%) of Canada's coal exports were from Alberta. At \$18.3 million sulphur was also a significant export to Brazil. Almost all (91.5%) of Canada's \$20.0 million in sulphur exports were from Alberta. Alberta's exports of sulphur declined from \$20.8 million in 1992 to \$18.3 million in 1993.

Colombia

Colombia was Alberta's second largest export market in South America. The value of exports to Colombia declined from \$29.4 million in 1992 to \$19.8 million in 1993, a 32.6% decrease. Between 1989 and 1993 Alberta's average annual change in the value of exports was 8.3% while Canada's was 8.0%.

The single largest export to Colombia from Alberta was wheat valued at \$15.7 million. Wheat exports represent 79.3% of Alberta's exports to Colombia. The value of Alberta's wheat exports declined 10.3% between 1992 and 1993. "Contractor's equipment to be re-exported to Canada" was the second largest export commodity valued at \$1.4 million followed by barley valued at \$1.1 million.

Venezuela

With exports valued at \$19.2 million Venezuela was Alberta's third largest South American market. Exports to Venezuela were down 29.6% from \$27.3 million in 1992. Even with this drop in exports, in general growth in the value of exports to Venezuela has been exceptional. Between 1989 and 1992 the average annual per cent change was 53.9% compared to Canada's average of 18.6%.

Wheat was the single most important export to Venezuela valued at \$4.2 million. This is down significantly from 1992 values of \$13.0 million (-67.7%). Styrene was the second most important export valued at \$3.8 million. The value of Alberta's exports of styrene also decreased from \$6.2 million in 1992 (-38.9%).

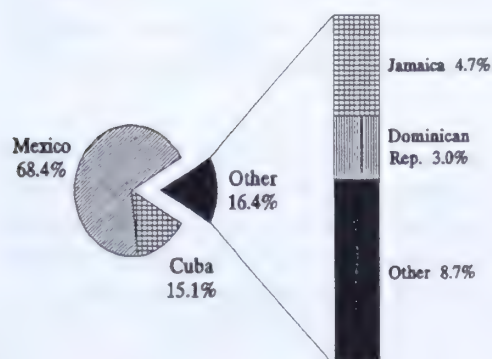

Central America, Mexico and the Caribbean

Exports to this region remained reasonably stable. In 1992 exports were valued at \$126.2 million but decreased 0.3% to \$125.8 million in 1993. The average annual per cent change between 1989 and 1993 was 0.4%. Mexico, Cuba and Jamaica remained the three largest markets in this region for Alberta with exports valued at \$86.0 million, \$19.0 million and \$6.0 million, respectively.

Alberta Exports to Central America, Mexico & The Caribbean, 1993

Total Value of Exports \$125.8 Million

Half of Alberta's exports to this region were from the primary agricultural industry, accounting for 50.9% of Alberta's exports or \$64.0 million. The manufacturing industry, valued at \$48.8 million, accounted for 38.8% for Alberta's exports to this region. The Food and Beverages exports were the largest of manufactured exports. Food & beverages represented 11.5% of Alberta's exports or \$14.5 million. Machinery exports were also significant with exports valued at \$12.7 million.

Mexico

Exports to Mexico increased from \$75.9 million in 1992 to \$86.0 million in 1993. This represents a 13.3% increase in the value of exports. Alberta exports represent 10.9% of all Canadian exports. Since 1989 Alberta's average annual growth in exports to Mexico has been 4.7%. Canada's growth has been higher averaging 7.0%.

Canola exports increased significantly from \$5.1 million in 1992 to \$24.9 million in 1993. This represents an increase of 384.2%. Wheat was the second most important commodity exported valued at \$22.4 million, down 21.8% from \$28.6 million in 1992. Coal

was also a significant export with a export value of \$10.4 million, a 55.3% increase over 1992. Just over half of Canada's exports of coal to Mexico were from Alberta.

Cuba

Alberta exported a total of \$19.0 million in goods to Cuba in 1993. This is a 30.1% decrease from the \$27.3 million exported in 1992. About 14% of Canada's exports to Cuba are from Alberta. On average, since 1989, the value of Alberta's exports to Cuba has decreased 8.3%. Canada's exports have also declined but at a slower rate of 3.5%.

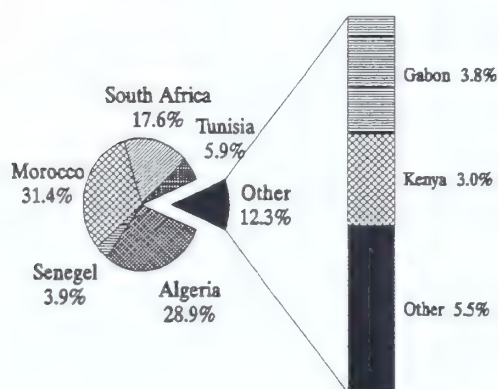

Machines and mechanical appliances were Alberta's highest valued export to Cuba (\$5.7 million). This is a 920.0% increase from 1992 values of \$561.4 thousand. Alberta's exports of machines and mechanical appliances accounted for 98.7% of Canadian exports of this commodity. Exports for the parts of machines/mechanical appliances were also important valued at \$4.6 million. When combined the machines/mechanical appliance sector was valued at 10.3 million in 1993. Wheat exports totalled \$5.6 million in 1993, up 4.1% from 1992.

Africa

Exports to Africa decreased 45.9% from \$190.0 million in 1992 to \$102.9 million in 1993. Since 1989 the value of exports to Africa has decreased at an average annual rate of 9.1%. Morocco (\$32.3 million), Algeria (\$29.7 million) and South Africa (\$18.1 million) were Alberta's three largest African markets in 1993.

Just under half (45.2%) of Alberta's exports to Africa were from the primary agricultural industry, valued at \$46.5 million. Mining

had the second largest industry exports valued at \$39.3 million or 38.2% of Alberta's exports to Africa. Sulphur constituted all of Alberta's mining exports to Africa. Exports of manufactured goods represented 12.1% or \$12.4 million.

Exports to Africa by Industry

Total	102,868	100.0

Morocco

Morocco was Alberta's single largest market in Africa. In 1993 Alberta exported \$32.3 million in goods to Morocco. This is a significant decrease (53.0%) from 1992 when Alberta exported \$68.7 million in goods. This decrease is largely the result of the decrease in sulphur exports. Since 1989 the average annual change in the value of Alberta exports was a decline of 5.2%. A similar trend is being experienced by Canada where the decline over the same period was 6.2%. Alberta's exports to Morocco represented 35.0% of Canadian exports to Morocco.

Sulphur was Alberta's largest export to Morocco in 1993 valued at \$24.4 million. This single commodity represented 75.5% of Alberta's exports to Morocco. In 1992 Alberta exported almost \$66.0 million in sulphur to Morocco. This is a 63.1% drop from 1992.

Algeria

Algeria moved from fourth position in the African region in 1992 to second in 1993. Alberta exports to Algeria totalled \$29.7 million in 1993, a 16.6% increase from 1992 values of \$25.5 million. This increase was primarily the result of increased exports of wheat. Since 1989 Alberta exports have had an average annual increase of 15.3%. This trend is contrary to the Canadian trend which showed a decrease of 5.7% over the same time period.

Wheat, durum and meslin, were the primary exports to Algeria in 1993 valued at \$25.1 million. Wheat exports increased from \$10.1 million in 1992, representing a 148.5% increase between 1992 and 1993. Wheat exports accounted for 84.5% of Alberta's exports to Algeria.

South Africa

Exports to South Africa from Alberta were valued at \$18.1 million in 1993. This is a 36.5% decrease from \$28.5 million in 1992. The decrease in the export of sulphur is largely responsible for the decline in the value of exports to South Africa. The average annual per cent change in the value of Alberta exports to South Africa since 1989 was -18.2%. This trend is contrary to the Canadian trend of an increase of 11.3% over the same time period. Alberta exports represent 11.8% of Canadian exports to South Africa.

Wheat was the single largest Alberta export in 1993 valued at \$11.5 million. This is an increase from \$9.9 million in 1992 (16.1%). Sulphur exports dropped 63.9% from \$15.4 million in 1992 to \$5.5 million in 1993.

Oceania

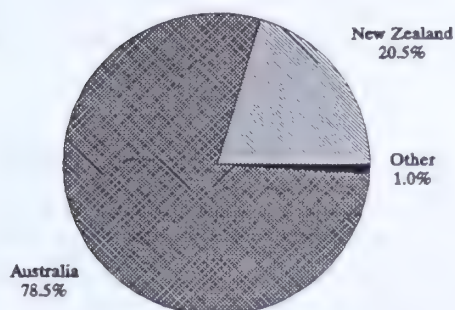

Alberta exports to Oceania declined from \$95.2 million in 1992 to \$66.9 million in 1993, a 29.7% decrease. This has resulted in an average annual decrease of 14.3% between 1989 and 1993.

Australia and New Zealand account for 99.0% of Alberta's market in this region.

Alberta Exports to Oceania, 1993

Total Value of Exports \$66.9 Million

The majority (77.1%) of Alberta's exports to Oceania are from the manufacturing industry. These exports totalled \$51.6 million. Chemicals and chemical products represented 49.6% of Alberta's exports to Oceania or \$33.3 million. Machinery was also an important manufacturing export valued at \$9.1 million. The mining industry exported \$10.6 million which represented 15.9% of Alberta exports to this region.

Exports to Oceania by Industry

	1993 (\$000s)	Percent of Total
Primary Agriculture	2,344	3.5
Mining	10,638	15.9

Australia

The value of Alberta's exports to Australia declined from \$73.4 million in 1992 to \$52.6 million in 1993, a 28.4% decrease. Canadian exports to Australia grew from \$630.2 million in 1992 to \$700.5 million in 1993, a 11.2% increase. Between 1989 and 1993, exports to Australia from both Alberta and Canada have decreased. The average annual per cent change for Alberta was -15.2% and for Canada was -9.2%.

Polyethylene was Alberta's single most important commodity exported to Australia. Valued at \$13.3 million, exports of polyethylene decreased from \$17.5 million in 1992. This represents a 24.4% decrease. Of all Canadian exports of polyethylene Alberta's exports accounted for 76.1% of these exports. Urea was also a popular export to Australia valued at \$7.1 million in 1993. This is the dramatic decrease from 1992 values of \$21.5 million. Air and gas compressor hood exports increased from \$276.1 thousand in 1992 to \$7.1 million in 1993. This represents a 2,456.4% increase.

New Zealand

Like Australia, exports to New Zealand have, on average, decreased since 1989 at an average rate of 10.6%. Canadian exports have decreased 8.6% over same period. In 1993 Alberta exports to New Zealand were valued at \$13.7 million, down 36.4% from \$21.6 million in 1992.

Most of the decrease in the value of Alberta's exports to New Zealand is the result of the reduced value in the export of sulphur. Sulphur exports were valued at \$10.7 million in 1992 but dropped to \$5.4 million in 1993, a 50.0% decrease. Polyethylene exports were valued at \$5.4 million in 1993, a 18.4% decrease from \$6.5 million in 1992. Non-cellular film exports increased from \$755.5 thousand in 1992 to \$1.1 million in 1993, a 43.0% increase.
